

Douglas
 **Fir**

**A wood for
the world.**

 **C&D**
LUMBER CO.
Great People. Great Products.

Our Douglas Fir is a stronger, more durable wood

Douglas Fir Timbers.
There are no limits to the
strength and beauty
of this wood.

C&D derives its fir from the coastal and Cascade Mountains of the Pacific Northwest. Compared to other commonly used wood products, our Douglas fir is a stronger, more durable wood. To assure quality and availability, we take care of our natural resources from the management of our forests to the lumber we deliver to you.

Douglas Fir a wood for the world

C&D manufactures both rough and surfaced timbers of the highest quality and we are one of the few sawmills that can cut timbers to your specifications.

To provide lasting quality, we anti-stain, anti-mold treat and clear end seal our Douglas fir timbers.

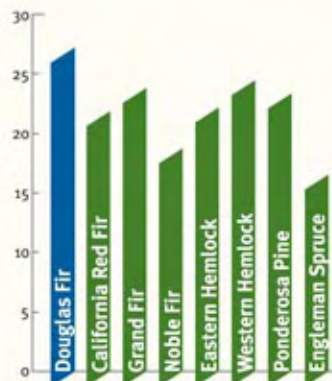

This extra attention to detail is why people all around the world order Douglas Fir from C&D Lumber.

Douglas Fir is the most versatile and the sturdiest for all your building needs.

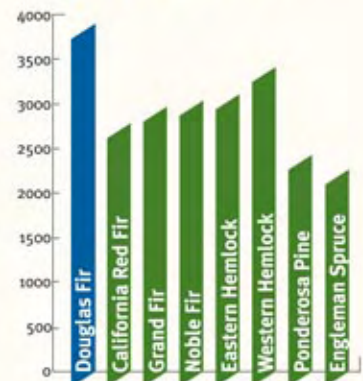

IMPACT BENDING

Height of drop in inches with 50 lb. hammer causing complete failure.

CRUSHING STRENGTH (PARALLEL TO GRAIN)

Maximum crushing strength in pounds per square inch.

Settle for nothing less than the superior.

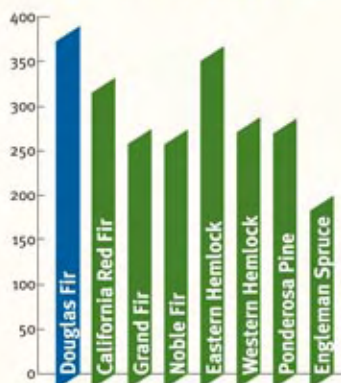

Customer satisfaction is behind everything we do at C&D Lumber. It's a major part of our commitment to quality, value and service and is a tradition that goes back five generations—a tradition you'll find reflected in our timbers.

We realize that every project is special—and that each customer has individual needs. C&D Lumber will accommodate those needs. We custom cut timbers, rough and surfaced, up to 26 feet. We will also paper wrap and provide you with mixed loads. We believe that when you specify C&D Douglas fir you are committing your project to the highest levels of craftsmanship and beauty.

We want to work with you to make every project a world-class success. The best way—settle for nothing less than the superior quality, dependable strength and natural beauty of Douglas fir from C&D Lumber Company.

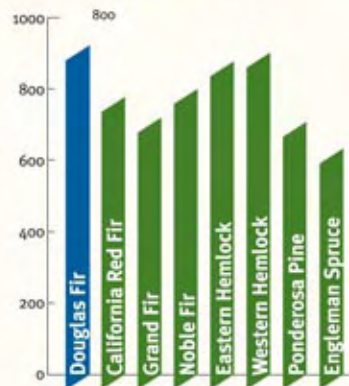

For areas where Premium Exposed™ rough timbers are needed, C&D cannot be beat. They come to you clean, blemish free and beautiful. They are consistently high quality, consistently sized and treated with a mold-free agent. Premium Exposed™ rough timbers are an excellent choice for dramatic interiors.
