

Build something great™

# Boral TruExterior™ Siding

## V-RUSTIC SIDING

### **Boral TruExterior™ Siding**

Boral TruExterior™ Siding is creating an entirely new category of siding products. The new V-Rustic profile recreates the look and feel of traditional wood siding but it performs better, is remarkably workable and has a lasting look – all without the issues that plague exterior wood products. Plus it can be installed using proven woodworking tools and methods, so no special tools are required.

## Boral TruExterior™ Siding

Boral TruExterior™ Siding maintains a high level of dimensional stability during periods of temperature and moisture change, which allows it to resist moisture-related issues such as cracking and splitting. Plus it's virtually rot and termite free, and it's backed by a 20-year limited warranty, which makes it a great, low-maintenance alternative to other siding products.

### Superior Workability

Boral TruExterior™ Siding installs with standard woodworking tools and methods, so no special tools or skills are required. It accepts a wide variety of fasteners and does not require end sealing or any special adhesives that would add cost to the installation. Boral TruExterior™ Siding can be painted any color, as it is not prone to movement during heat build-up.†

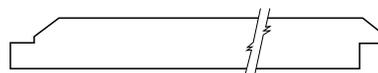

### Boral TruExterior™ Siding Facts

### LIKE NO OTHER...

The new V-Rustic profile from Boral TruExterior™ Siding is the solution for homeowners who desire the look and feel of traditional wood siding without the constant maintenance and upkeep associated with exterior wood products. Boral TruExterior™ Siding won't crack or split, plus it resists rot and termite attacks. It truly is "like no other".

### SUSTAINABILITY

Boral TruExterior™ Siding's sustainable properties are a result of the use of recycled polymers and highly refined recovered coal combustion products, which are endorsed by the US Green Building Council (USGBC) in the production of construction materials.

- 70% recycled content
- California Wildland Urban Interface (WUI) listed
- Produced in a state of the art LEED Silver certified commercial facility
