

# Wrap N' Snap™ Column Wrap FAQ

## **WHAT IS WRAP N' SNAP™?**

Wrap N' Snap™ is a patented system for creating long-lasting, maintenance-free column in minutes. Combining the benefits of cellular PVC with ease of installation. our invention consists of four pre mitered panels, a temporary tape on the corners and a snap-lock design. Wrap N Snap™ combines style and elegance with ease of installation, low maintenance and cost effectiveness.

## **WHAT TYPE OF CUSTOMER WOULD USE WRAP N' SNAP™?**

Wrap N' Snap™ column wraps are designed for either the professional installer or the Do-It-Yourselfer and can be used on either new construction or remodeling projects.

## **HOW IS WRAP N' SNAP™ INSTALLED?**

Wrap N' Snap™ is designed to wrap around a structural support, typically treated wood posts. The installer cuts to length, adds adhesive in the grooves and folds the material around the column until it snaps together. The temporary tape is removed after the adhesive has set, typically within 4-24 hours. Pre-mitered trim pieces and various moldings are available to complete the column.

## **WHAT ADHESIVE SHOULD BE USED?**

A PVC adhesive like those used to bond cellular PVC boards and sheets with a sufficient "open time" is recommended. This can be found in any home center or hardware store

## **WILL WRAP N' SNAP™ YELLOW?**

Wrap N' Snap™ is made from cellular PVC sheets that contain the same UV stabilizers used in PVC windows, siding and other PVC products proven to resist yellowing or fading. [Wrap N' Snap™](#) should be painted after installation. See below for painting instructions

## **CAN WRAP N' SNAP™ BE PAINTED?**

Yes. Sanding the surface and applying a primer is recommended before painting with a good quality acrylic latex paint for outdoor use.

## **WHAT SIZES ARE AVAILABLE?**

Wrap N' Snap™ is available to fit around 4"x4", 6"x6", 8"x8", and 10"x10" posts in both 8.5' and 10' lengths.

## **WHAT IS THE WARRANTY?**

Wrap N' Snap™ comes with a 25 year warranty
